Section A: Reading (10 Marks)

I. Read the given passage and answer the questions that follow:

(1×5=5)

Aeroplanes have the reputation of being dangerous and even seasoned travellers are intimidated by them. They also have the grave disadvantage of being the most expensive form of transport but nothing can match them for speed and comfort, travelling at a height of 30,000 feet, far above the clouds, and at over 500 miles an hour is an exhilarating experience. You do not have to devise ways of taking your mind off the journey, for an aeroplane gets you to your destination rapidly.

For a few hours, you settle back in a deep armchair to enjoy the flight. The real escapist can watch a free film show and sip a hot or cold drink on some services. But even when such refreshments are not available, there is plenty to keep you occupied. An aeroplane offers you an unusual breathtaking view of the world. You soar effortlessly over high mountains and deep valleys. You really see the shape of the land.

If the landscape is hidden from view, you can enjoy the extraordinary sight of unbroken clouds, and plains that stretch out for miles before your while the sun shines brilliantly in a clear sky. The journey is so smooth that there is nothing to prevent you from reading or sleeping. However you decide to spend your time, one thing is certain: you will arrive at your destination fresh and uncrumpled. You will not have to spend the next few days recovering from a long and arduous journey.

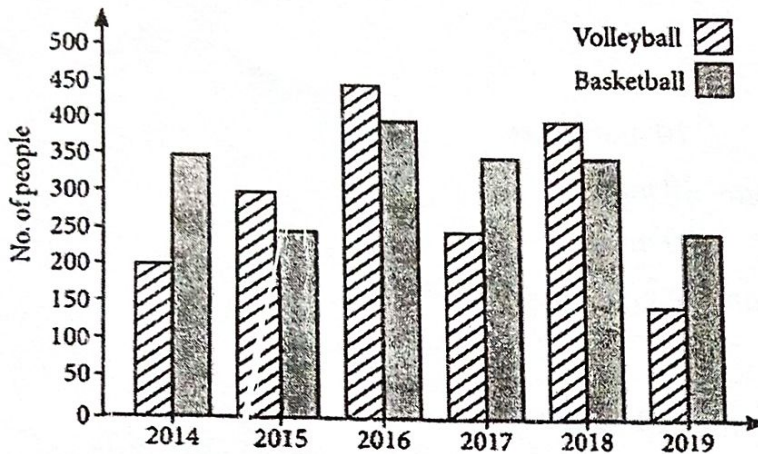

Questions:

1. Why does the author say that even seasoned travellers are intimidated by air travel?
2. How can you keep yourself busy during an air journey?
3. According to the passage, what is the biggest disadvantage of air travel?
4. How will passengers arrive at their destination?
5. Pick out a word from the passage which means the same as:
 - a) features of the land (para 3)
 - b) light snack or drink (para 2)

■. Read the given passage and answer the questions that follow:

Study the given graph :

The given graph shows the preferences of children, in a school, in playing different games over the period of six years i.e., from 2014 to 2019.

The graph shows that the highest number of children interested in playing volleyball is in the year 2016 whereas in the year 2019, very less number of children preferred volleyball. The graph shows a hike in the game of volleyball again in the year 2018. The data shows that the preference of people in basketball is almost constant, like in the years 2014, 2017, and 2018 the same number of children showed interest in it. Basketball got a slight hike of interested children in the year 2016 but a decline has been seen in it in 2019 which is equal to 2015.

If we observe the graph we can see that children's preference related to volleyball is continuously changing every year. Although initially 200 children were interested in volleyball in 2014. Then it reached 300 in 2015, the greatest hike of 450 in 2016, but it again declined to 250 children in 2017, it again showed a hike of 400 children in 2018 and the lowest number of children i.e., only 150 in 2019.

Whereas basketball was much preferred in 2014 than volleyball. It shows a decline of 100 children in 2015 but again reached 400 in 2016 and then remained the same in 2017 and 2018. To conclude the data shows that throughout the six years basketball was more preferred in comparison to volleyball. Although data shows that volleyball has got the highest number of interested children in 2016, the numbers are constantly flickering, which reached the lowest and is less preferred by the children in the year 2019 also.

शिक्षा की दृष्टि से भारत को जगद्गुरु की संज्ञा दी गई है। इसी भूमि पर सर्वप्रथम ज्ञान का प्रकाश फैला और यहीं से विश्व ने ज्ञान की ज्योति को ग्रहण किया। 19 वीं शताब्दी के मध्य अंग्रेजों के आगमन से भारत की शिक्षा पद्धति भी प्रभावित हुई। वे नहीं चाहते थे कि भारतीय शिक्षाप्राप्त कर अपने अधिकारों के प्रति जागरूक हों, फलतः लार्ड मैकाले ने भारतीयों को केवल क्लर्क, चपरासी बनने योग्य ही शिक्षा के अवसर प्रदान किए। परिणामस्वरूप अधिकांश लोग अशिक्षित रह गए। मानव व्यक्तित्व के सर्वांगीण विकास के लिए शिक्षा अनिवार्य है। इसके अभाव में मनुष्य न तो अपना विकास कर सकता है और न ही समाज के विकास में योगदान दे सकता है। जिस देश के नागरिक शिक्षित होंगे, वही देश उन्नति के पथ पर अग्रसर होगा, क्योंकि शिक्षित ही उचित - अनुचित का भेद कर सकता है। अतः भारत जैसे लोकतंत्रात्मक देश में नागरिकों का साक्षर होना अनिवार्य है। इसी दृष्टि से स्वतंत्रता के उपरांत सरकार ने 'सर्वशिक्षा अभियान' चलाया, जिसका अर्थ है - देश के छोटे-बड़े सभी को अक्षर ज्ञान कराने के लिए व्यापक प्रयास। केंद्र, व राज्य सरकारें अपने-अपने ढंग से प्रयास कर रही हैं। दिल्ली सरकार द्वारा आरंभ की गई 'लाडली योजना' इस संबंध में एक ठोस कदम है।

1. भारत को जगद्गुरु की संज्ञा किस दृष्टि से दी गई है?

शिक्षा की/ स्वतंत्रता की/ विद्यालयों की / अधिकारों की

2. अंग्रेजों के आगमन से भारत की शिक्षा पद्धति कब प्रभावित हुई?

19 वीं शताब्दी के आरंभ / 19 वीं शताब्दी के अंत / 19 वीं शताब्दी के मध्य/ उपर्युक्त सभी

3. मानव व्यक्तित्व के सर्वांगीण विकास के लिए क्या अनिवार्य है?

जागरूकता / स्वाभाविकता / नागरिकता / शिक्षा

4. देश के छोटे-बड़े सभी को अक्षर ज्ञान कराने के लिए सरकार ने कौन सा व्यापक प्रयास किया?

जनसंख्या नियंत्रण / उत्पादन वृद्धि / सर्व शिक्षा अभियान / प्रौद्योगिकी युग

5. समुचित शिक्षा प्रदान के तहत दिल्ली सरकार द्वारा कौन सी योजना शुरू की गई?

ऐतिहासिक शिक्षा योजना / लाडली योजना / आत्मनिर्भर योजना / सर्वव्यापी योजना
